

A Call for Papers and Reviewers for Journal of Mathematics Education

Manuscript Topics

Journal of Mathematics Education (JME) is a semi-annual and peer reviewed professional academic research journal, and the first issue of JME has launched in December 2008. JME aims at promoting communication in mathematics education *between the United States and China as well as between West and East in general*. The goal of JME is to provide opportunities for all scholars to conduct research on mathematics education, with emphasis on assessment, curriculum, instruction, theory, technology, equity, and other issues relating to mathematics education.

Manuscript Preparation

Manuscripts should be double-spaced. Use as a model the sample paper included on pages 306-320 of the *Fifth Edition Publication Manual of the American Psychological Association* (<http://books.apa.org/books.cfm?id=4200061>). Manuscripts should include following components:

1. Microsoft Word version of your manuscript including a cover sheet containing the title, author(s), professional affiliation(s), and email address(es).
2. An abstract not to exceed 120 words on page 2 followed by key words.
3. Typed double-spaced manuscript using a 12-point, with 1" margins on top, bottom, and sides. The manuscript should be limited to 4000 words, excluding figures, tables, and appendices.

Review Procedures

All manuscripts are subject to a review process. Manuscripts should not have been previously published nor be under consideration for publication in any other journal.

Type of review: Blind review

No. of reviewers: Two

Reviewers' comments are returned to the author

The Editor will use three categories to notify the author of the decision of the reviewer process: Accept, Revise and Resubmit, or Reject. If the decision is to Revise and Resubmit, the author(s) are encouraged to revise and resubmit within 30 days. The revised manuscript will be reviewed by a new set of external reviewers.

Review Criteria

The following criteria will be used by reviewers in evaluating the appropriateness of manuscripts for publication in *JME*:

All Manuscripts:

- Relevant and significant
- Addresses K-12 mathematics education issues
- Reflect current theoretical/practice-based perspectives

In addition, research manuscripts are judged on:

- Research questions
- Theoretical framework
- Research methods

- Data Analysis and results
- Discussion and conclusions
- Writing style
- Contributions of new knowledge

Timeline for the review process

Time for submission: July issue - **end of March**

December issue - **end of September**

Please make sure to submit your manuscript to **both** jme_editor@yahoo.com and bd690310@163.com

Feedback from reviewers: middle of April and middle of October

Decision by Associate editor: end of April and end of October

Revision of articles: end of May and end of November

Decision by editor: beginning of June and beginning of December

Call for reviewers

The *JME* is committed to timely publication. As such, the reviewers who have expertise in the mathematics education are essential for the publication. Please send us Email by providing following information if you are interested in being a reviewer:

Name: Academic rank:

Affiliation: Department:

Expertise specific:

Address: Phone:

Fax: Email:
